

Serotek Chooses Fonix Text-to-Speech for SA To Go

Web 2.0 accessible to the blind

SALT LAKE CITY, UT (June 18, 2007) Fonix Speech, Inc., a wholly owned subsidiary of Fonix® Corporation (OTC BB: FNIX) specializing in embedded speech interfaces for mobile devices, handheld electronic products, video game consoles, data base systems and processors, announces Fonix text-to-speech software on a new web application called SA To Go (System Access To Go) from Serotek Corporation, the leading provider of Internet and digital information accessibility software and systems. SA To Go is the first product to make Web 2.0 accessible to the blind and the visually impaired.

“Serotek chose Fonix text-to-speech for our new SA To Go application because it provides high-quality TTS without large memory requirements,” says Mike Calvo, Serotek CEO. “SA To Go is more than a screen reader; it requires no installation and provides complete control of e-mail, Internet and offers access to Microsoft Office productivity tools like Word, PowerPoint and Excel. Fonix software doesn’t slow down the application, and it still provides clear, easily understood TTS voices.”

Persons with visual impairments can use SA To Go to help them more easily use computers. SA To Go provides instant Internet accessibility through www.SAtoGo.com. When finished, the user simply closes the program and any personal information vanishes leaving the host computer completely unchanged.

“Fonix text-to-speech software, which is optimized for limited memory applications, helps SA To Go load within seconds,” says Tim K. Hong, VP of Sale, Fonix Speech, Inc. “The key to successful system access products is ease of use, affordability and convenience. Serotek’s new application meets those requirements.”

For information, users may visit www.satogo.com and follow the instructions. For more information about Serotek and its family of System Access accessibility tools, visit www.serotek.com.

Fonix TTS supports a wide array of hardware platforms and operating systems and offers nine voices and eight languages. For more information, call (801) 553-6600 and say “Sales.”

About Serotek

Serotek Corporation is a leading technology company that develops software and manufactures accessibility solutions. Committed to the mission of providing accessibility anywhere, Serotek launched an online community specifically designed to meet the needs of people with disabilities. Since then, Serotek has introduced several powerful, affordable solutions that require minimal training, including System Access, for which it

was awarded the prestigious da Vinci award for innovation in universal accessibility by the National Multiple Sclerosis Association. For more information, visit www.serotek.com.
