

Yatec Includes Fonix Speech in Say N Play Video Game

Third major game from Yatec LLC scheduled for release in fourth quarter of 2008

SALT LAKE CITY, UT and BATON ROUGE, LA (April 29, 2008) – Fonix Speech, Inc., a wholly-owned subsidiary of Fonix Corporation (OTC BB: FNIX), announced today that Fonix voice recognition technology will be featured in Yatec, LLC's third major game, Say N Play. Scheduled for release in the fourth quarter of 2008, Say N Play is being co-developed by Yatec and Advance Games, LLC. Fonix will receive a software license and per-unit royalty fee.

“Including Fonix speech technology is going to add significantly to the player experience,” says Hayden Middlebrook, General Manager of Yatec. “Say N Play will be a different kind of game compared to Identity Quest, our latest game release.” Yatec's IQ: Identity Quest was ranked as the number one brain teaser game on Big Fish Games' website within the first week of the game's release.

“Say N Play presents a dynamic opportunity to showcase Fonix speech in an increasingly popular segment of the video game market,” says Lynn Shepherd, Sr VP Product Development, Fonix Speech. “We expect our speech technology will greatly improve the overall player experience by making the game more interactive.”

Fonix VoiceIn software allows for a voice command interface across multiple platforms, including XBOX 360, PlayStation®3, and PC and Mac videogames. For more information about Fonix Speech solutions, visit www.fonixspeech.com or call (801) 553-6600 and say “Sales.”
